CAREER OBJECTIVE

I am a self-taught MERN stack developer with 1.5 years of hands-on experience. I have completed one major project and am currently working on another, alongside several mini projects through self-learning platforms.

EDUCATION

Higher Secondary Education,
Ghss

2021 - 2023

TRAININGS / CERTIFICATIONS

Web Application Development

Jul 2023 - Present

Bootcamp, Kozhikode

I have utilized a self-learning platform that follows an intensive structure with 12 to 16 hours of daily work. This platform emphasizes time management, with weekly reviews conducted by industry experts. The program is designed to accelerate learning and project completion, allowing me to quickly develop practical skills by completing projects within short time spans

PORTFOLIO

PROJECTS

[Ecommerce ↗](#)

Dec 2023

Developed a full-stack e-commerce website dedicated to selling dresses, providing users with an intuitive interface to browse, select, and purchase various styles and sizes. The platform includes robust features for user management, product cataloging, and order processing, along with an admin panel for control.
